BRICKER FLAYS DAVEY REGIME

Claims Government Costs Have Increased Contrary to Governor's Contentions

ADDRESSES ASHLEY FOLK

Denounces Sales Tax for Farmers Selling Produce at Roadside Stands

Special to The Star

ASHLEY Aug 10—The cost in the operation of state government and the sales tax were the targets in a speech made by Attorney General John W Bricker Republican candidate for governor Saturday afternoon at the Ashley fair

Attorney General Bricker spoke to approximately 2 000 fair visitors between the races and was given an enthusiastic ovation upon being introduced by Attorney Winston Hill of Delaware

Despite the Democratic administration's claims of economy the auditor of the state's figures show that the ordinary cost of state government operation increased approximately $4 000 000 last year over 1934 he said By way of illustrating what he terms useless expenditures he cited the laying of a flagstone walk near the state house replacing one which would last 200 years The new one he said would last about 50 years

Cites Tax On Farmers

In discussing the sales tax Attorney GeGneral Bricker reminded the audience that during the present administration a sales tax the repeal of which is an issue of the present Democratic campaign had been placed on farmers selling products at roadside stands and said that he as well as other visitors attending the fair paid his cent sales tax on the racing score card

He compared the Ashley fair with the ones he attended with his father in Madison county as a boy when he was alloted 50 cents for the day's outing Twenty five cents out of the 50 went for admission but on the whole the day was his greatest spending day of the year he said He pointed out that Ohio ranks fourth in agriculture third in manufacturing and stands next to California in rural electrification

Accompanied By Wife

The speaker said he was accompanied to Ashley by his wife and son John and was without a police squad He expressed the hope that his son would be interested in agriculture

Before going to the Ashley fair Attorney General Bricker was a guest at a dinner given by the Delaware county Republican executive and central committees Other guests at the dinner were Fred Milligan assistant attorney general and manager of the speakers bureau for Bricker campaign Earl Griffith Mt Gilead publisher who is a candidate for secretary of state and James A Glenn of Coshocton Republican candidate for congress from the 17th Ohio district

ROBBERY MOTIVE

Prisoner Denies Trying To Assault Student in Hotel Room

By The Associated Press

ASHEVILLE N C Aug 10—An early trial was promised today for Martin Moore 22 Negro hotel employe who Sheriff Laurence Brown said confessed he killed Helen Clevenger blond New York coed in a moment of panic when he went to her room to rifle it

Solicitor Zeb V Nettles said the gangling hall boy at the fashionable Battery Park hotel where the New York university student was staying would be tried at a term of court beginning next Monday

The prisoner arrested Saturday night and questioned for hours before Sheriff Brown said he confessed he shot and clubbed the 18 year old girl to death was held in the county's penthouse jail atop its skyscraper courthouse

Moore denied that he attempted to assault the girl Robbery the sheriff quoted the confession was his only motive and he entered the room after trying several others on finding the door unlocked

When I got in the room the sheriff said the confession related she screamed and that's why I shot her

Hit Her with Gun

She screamed some more and started to run out I struck her with the gun When she fell on the floor I struck her several times more to stop her screaming

Sheriff Brown said he was convinced the girl had not been assaulted

The undertaker the coroner and a physician said there was evidence of an attack but later three physicians made an examination and could not agree

Officers disclosed a well known police ruse—that of telling a prisoner his fingerprints were found on the scene of the crime—caused the prisoner to break thinking he was trapped There were no fingerprints in the girl's room of any value

Eight persons were detained during the investigation only to be released later

Although several Negro employes of the hotel had been detained for questioning Moore's name never had been brought into the case

Worked After Slaying

During the 24 days between the killing and his arrest he worked at the hotel daily sweeping the carpets outside the second floor room in which the girl was shot and clubbed

Sheriff Brown quoted the confession

I finished my work at 5 p m July 15 and left for home I sneaked back into the hotel the same night through a back door about 9 p m and I did downstairs in my locker

About 2 45 he continued he sneaked to the second floor He tried several doors found them locked Then he tried Miss Clevenger's and finding it unlocked went in

The girl was on the bed she screamed Then I shot her she kept screaming and I hit her a couple of times while she was on the floor

Information that finally broke the mystery officers disclosed was a tip from Banks Taylor a Negro pantry boy at the hotel that Moore owned a pistol of the type used in the crime

Owens To Turn Pro Following Tour of Europe

Olympic Star Already Stormed With Offers Including Orchestra Appearance

By The Associated Press

BERLIN Aug 10 Jesse Owens with the ... of Larry Snyder his coach at Ohio State announced today he would turn professional after completing a post Olympic tour provided sufficient financial inducements are forthcoming

Already besieged with offers including a contract offering a 10 weeks personal appearance tour with a California orchestra the winner of four Olympic gold medals frankly decided to cash in on his record and close his amateur career despite the fact he has one more year's college eligibility

Snyder who coached Owens through his record smashing Olympic exploits and rates the Negro as the greatest track athlete of all time is advising Jesse carefully however but ... he makes the professional move

It would be foolish for me to stand in Jesse's way Snyder said He's absolutely at the height of his fame now Nothing that he could do in his remaining year of college competition would lift him to a higher peak in the athletic world than he now enjoys

Under the circumstances I believe he is justified in accepting offers to turn professional as long as they are the right kind He has a good chance to make from $75 000 to $100 000 I'd be too glad to see him do it

Snyder and Owens are doubtful about accepting any offers before returning to the United States late in September after touring Europe with members of the U S Olympic team

Jesse is slated to compete in Cologne tonight Praha Tuesday Bochum Wednesday and in the British empire United States meet in London Saturday He then will barnstorm Sweden and several other countries

2 BROTHERS HELD AFTER GIRL TELLS STORY OF ATTACK

Arthur William Daniels, 22, Is Victim; Accounts of Altercation Over Attentions of Girl Differ.

INJURIES suffered in a quarrel reported to police to have centered around the attentions of an 18 year old Marion girl caused the death of Arthur William Daniels, 22 of 988 Bryant street at the City hospital shortly after midnight this morning

The attending physician expressed an opinion a hemorrhage in the head resulting from a heavy blow caused the death

While Dr M P Axthelm county coroner opened a formal inquest police held two brothers William F McElroy 22 of 206 Nye street and Don McElroy 20 of 934 Bennett street who police said figured in the fatal quarrel

They also took a detailed statement from Miss Lucy Saxton 18 of 111 Pies avenue over whose attentions ... quarrel was reported to have started She and other eyewitnesses of an alleged altercation between Daniels and the McElroy brothers were questioned at police station this morning

Daniels a grinder at the Alloy Cast Steel Co suffered the fatal injury Saturday midnight in front of the LaMar restaurant the first business place east of the Union station on the north side of West Center street.

According to statements of Miss Saxton and other persons questioned Daniels had a date with Miss Saxton for Saturday night and was to have met her early in the evening at the Hilligan Inn at 400 West Center street a short distance east of the LaMar restaurant but his automobile broke down and he was late getting to the inn arriving around 10 30

Told To Wait

In the meantime witnesses said William McElroy and some companions came to the inn and approached Miss Saxton asking if he could walk home with her She was quoted as having told him to wait until after the dance for her answer planning to consent if Daniels did not come

Shortly after the belated arrival of Daniels she went to McElroy and told him he could not walk home with her because Daniels had come police were told

A few minutes before midnight the dance at the Inn ended and several groups of couples who left the Inn walked westward on the north side of Center street headed by Miss Saxton and Daniels and others in their party

As the group reached the front of the LaMar restaurant witnesses told police the McElroy brothers and Daniels figured in a scuffle that ended with Daniels falling to the sidewalk unconscious He was taken to the City hospital in an ambulance and his condition was not immediately regarded critical He regained consciousness and had improved so much yesterday morning that relatives discussed the possibility of removing him to the home of his sister Mrs Garnet Dudley at 988 Bryant street, where he lived

His condition grew suddenly worse last night and he died at about midnight

Miss Saxton Tells Story

Miss Saxton who was walking on the sidewalk beside Daniels when the altercation took place asserted during questioning this morning at the police station that both McElroy brothers drew 'something wrapped in handkerchiefs' from the pockets of their trousers and struck Daniels without warning

She asserted William McElroy approached them, stepped in front of her and struck the first blow at Daniels' face Then Don came from the opposite side and struck a blow also on Daniels' face William then struck again, this time knocking Daniels to the sidewalk where he remained, Miss Saxton said She added that Don left immediately but William stayed until an ambulance took Daniels to the hospital.

The McElroy brothers gave conflicting accounts of the altercation, police said, and neither of them gave a recital of the happenings that agreed with the story told by Miss Saxton and several other witnesses. Don McElroy was quoted as saying he took a hand in the altercation when he found his brother in an argument, inquired what was going on and received a sharp answer from Daniels. William McElroy admitted he struck ... blows.

Statements obtained by police indicated the principals in the altercation were almost strangers. The McElroy brothers said they were not personally acquainted with Daniels, William asserting he wouldn't recognize Daniels if he saw him walk into the room. William also said he had casually known Miss Saxton for some time

PRESIDENT HITS REACTIONARIES

Tells Labor History Shows Return of Old Practices Is Always Short Lived

REFERS TO COURT'S ACTION

Says Wage Earners Did Not Cheer When New Deal Measures Were Killed

By The Associated Press

WASHINGTON Aug 10—President Roosevelt told labor's Non Partisan league today he was confident future history would show as it had in the past that a return to reactionary practices is ever short lived

In a letter which George L. Berry president of the league read at the league's first national convention Mr Roosevelt said:

During the last three years we have endeavored to correct through legislation certain of the evils in our economic system We have sought to put a stop to certain economic practices which did not promote the general welfare

Some Held Invalid

Some of the laws which were enacted were declared invalid by the supreme court

It is a notable fact that it was not the wage earners who cheered when those laws were declared invalid

I greet you in the faith that future history will show as past history has so repeatedly and so effectively shown that a return to reactionary practices is ever short lived

Having tasted the benefits of liberation men and women do not long forego those benefits

I have implicit faith that we shall find our way to progress through law Your support is a priceless contribution toward continued faith in that outcome

The President said he was proud that the league was holding its meeting in support of his candidacy for reelection

This would not be the case," he added, if you did not know, out of the experience of the last three years, that the present administration has endeavored to promote the ideal of justice for the great masses of America's wage earners and to make that ideal a reality"

Just before the meeting Berry predicted in a statement that Mr Roosevelt would get "100 per cent active support in his campaign from "all labor and friends" of labor."

Ohio's peach crop this year is the lightest in 15 years because of winter damage he said Peach growers are replacing many of their damaged trees with such types as Golden Jubilees from New Jersey and South Havens from Michigan

Head Noises

Many requests come to me asking for information about head noises. This is not to be wondered at because this symptom is one of the most common afflictions of middle age. It may occur in younger individuals who have had some infection or other disturbance of the ea[r].

Head noises, tinnitus as it is spoken of medically, is always a distressing symptom. This noise is described in various ways by different sufferers. Some describe it as a continuous rumbling noise. Others compare it to the ringing of bells, the rushing of a stream, the roaring of the ocean, to a musical note, the hissing of a steam kettle or the chirp of a cricket.

Sometimes the noise is so pronounced and persistent as to prevent sleep and rest. It may be mild in its nature and disappear within a short time. I have seen victims of this symptom become so upset by the noise as actually to appear on the verge of mental disturbance.

The ancients believed that head noises were caused by evil spirits located within the skull. Not many centuries ago our forefathers believed in this superstition. They advised surgical and other methods of control that today are considered useless and unscientific.

Sometimes tinnitus can be traced to some deformity, irritation or inflammation within the inner ear. Enlarged or diseased tonsils is another possible cause. Dried or impacted ear wax, polyps, tumors and foreign bodies in the canal of the ear are other causes of head noises.

At times the disturbance can be traced to some constitutional disorder. High blood pressure, hardening of the blood vessels, auto-intoxication, faulty diet and inadequate hours of rest and sleep are contributing factors.

Relief can only be obtained when causative factors are corrected. This requires a complete physical examination and careful inspection of the nose, throat and ears. Avoid the use of home remedies and never rely upon suggestions for treatment made by some well-meaning friend.

Succeeding weeks will bring Lady For a Day, The Thin Man, It Happened One Night and other stand-out productions.

For his inaugural program Friday and Saturday Mr DeHaven has selected one of Jack Benny's most popular vehicles, It's in the Air, with Ted Healy, Una Merkel and Nat Pendleton in the supporting cast. The short subject program will include the first chapter of a new serial, Burn Em Up Barnes, with Jack Mulhall and Lola Lane, and two color features, Starlight Days at Lido and Land of Sunshine, the latter sponsored by the local chapter of Modern Woodmen of the World. On Sunday and Monday the Joe Louis-Max Schmeling fight picture and Barbara Stanwyck's Annie Oakley will top the bill.

The Oakland will be open every night with matinees on Saturday and continuous shows on Sunday at an admission price of 15 cents. A double feature policy will not be maintained, Mr DeHaven said.

Mr DeHaven formerly was in the motion picture business in New York City and other eastern cities and has been house manager and divisional director of the Coakeres Theaters Inc. The new owner and his wife are living at the Indo apartments at Church and Pearl streets. He will employ seven local people.

The Oakland theater was built by the late W T Jones and was operated for many years by a Marion firm composed of G H Foster, Edward F Sharpless and the late Charles R McMurray. The building is now owned by the Guaranty Title & Trust Co. of Columbus. Mr DeHaven said he has obtained a 15-year lease.

Fred Allen's Town Hall Stars At Palace Tuesday

GROUP OF TOWN HALL STARS

Above are several of the entertainers in Fred Allen's Town Hall stage show which will be at the Palace theater Tuesday.

Each of the 16 performers is a first prize winner on Fred Allen's Hour of Smiles radio program and the entire unit has been appearing at the Roxy theater in New York City.

At the request of the performers the word "amateur" has been dropped from their billing and publicity because they have established themselves as professionals by virtue of their theater appearances and their work on the NBC network. When Mr Allen put the show together he, realizing that he was working with green talent, hired professional coaches to comb over his material. The cast of the show spent three weeks in rehearsal so that when they appeared in front of the public they would have something new and different than the usual amateur show has to offer.

The stage show will last one hour and in addition the program will include the [illegible] [illegible] picture [illegible] with [illegible] Shirley [illegible] [illegible] [illegible] playing the title role in the picture version of [illegible] Harte's famous short story.

James A[illegible], who has already had several offers for motion picture work and who sings a high baritone, will act as master of ceremonies and the musical background will be supplied by the Johnson Bros. Hillbilly Band.

The stage show will include the following acts: Woodrow Wilson of Garfield N J, roller skating tap dancer; Elaine [illegible], an ace girl impersonator; Hazel [illegible], international tap dancer; Florence [illegible], chimes and glass player; Howard Reid, the clown of the troupe, and a singer and dancer; Dorothy and Tom Reilly, 20th Century Marvels; Two [illegible], twin sisters who sing and do comedy [illegible].

WOMEN WITHOUT MEN

[illegible] [illegible] [illegible] [illegible] cover [illegible] space [illegible] imagination. And just about now the beaches at [illegible] summer resorts are filled with women [illegible] men who are spending their days [illegible] that world is where wives [illegible] is and what he is [illegible] back in the city.

This is the [illegible] guessing game in the world. I has been one of woman's [illegible] summer sports ever since [illegible] spent her evenings [illegible] whether Jupiter was really [illegible] conference or just [illegible] with [illegible] [illegible] behind [illegible].

[illegible] [illegible] Eve [illegible] [illegible] Adam [illegible] with Lilith or some other [illegible] demon when the [illegible] man was merely [illegible] [illegible] [illegible] part [illegible] her Christmas present.

That's the way it is with these men. No woman can ever guess where a man is or what he is doing when he's out of sight. The only thing of which she can be absolutely certain is that he isn't where she thinks he is.

* * *

When a woman [illegible] [illegible] [illegible] [illegible] serves all the men [illegible] [illegible] [illegible] [illegible] flirting, playing golf and otherwise enjoying themselves, she finds it pretty hard [illegible] to her Tom or her [illegible] suffering in the city as he says [illegible] all alone.

But he [illegible] is never right. When she [illegible] a dark suspicion that he [illegible] will party at night [illegible] making eyes at [illegible] [illegible] draped [illegible] girls he is far more likely to be faithfully taking the dog for a walk or just sitting out in the park to get cool off.

And when she pictures him dining all alone in a [illegible] restaurant or [illegible] back to slave late at the office he [illegible] probably out with the [illegible] [illegible] [illegible] [illegible] drinks, laughing over [illegible] stories and so on, humming that popular old tune, My Wife's Gone to the Country.

* * *

When she visualizes him all [illegible] up in snappy white flannels dancing at a roof garden and gazing [illegible] into the eyes of some pretty [illegible], he may be stretched out in the long chair at home in his pajamas, sleeping with his mouth open and dreaming of her. And [illegible] goes.

A man is not always out lunching with a blonde when he leaves word that he's "in conference." Sometimes he's lunching with a brunet—and sometimes he's in conference. He's not always playing pool or poker down at Pete's place when he says he's working at the office. Sometimes he's down at Gus's place and sometimes he's working at the office.

Many a man has gone to jail protesting his innocence when he really was innocent. But no husband bothers to protest his innocence after the first year. He would rob his wife of her favorite pastime—a guessing game at which she never wins.

THE VIENNESE ROOF ATOP THE FAMOUS ST. REGIS HOTEL IN NEW YORK duplicates the resplendent ballroom of the Imperial Summer Palace in Schonbrunn Austria. A model of decorative taste and justly famous for the excellence of its choice dishes. The Viennese Roof is a favorite rendezvous of those who wish to escape from the summer heat and enjoy themselves in cool and charming surroundings. Here at the St. Regis, as at other fine dining places from coast to coast, Camels are the preferred cigarette. "Our patrons understand the art of dining well," says Lawrence, deft maître d'hotel of The Viennese Roof. "You can see Camels on nearly every table. They certainly are the most popular cigarette at The Viennese Roof."

CHAMPION DIVER. Mickey Riley says: "Camels help my digestion. I enjoy them at my meals and afterwards. Boy, Camels have a great taste! Camels never get on your nerves—never tire your taste."

AS EVERY Camel smoker knows, Camels at mealtime help to create a cheery sense of well-being. You eat with relish—digest with greater ease. Camels increase the flow of digestive fluids...alkaline digestive fluids...in a pleasant way.

Like Frank Buck, Lee Gehlbach, Mickey Riley, Bill Tilden, Tony Manero, Willie Hoppe, and millions of other discriminating smokers who prefer Camels and recommend them, you too will find Camels an enjoyable aid in easing the tension of modern life. With their "lift"...their aid to digestion...and their mild, rich flavor, Camels do indeed set you right!

MRS. NICHOLAS PENNIMAN, III, charming Baltimore hostess. "I enjoy Camels," she says. "Camels taste so good and they help digestion too."

Each Camel at mealtime adds its measure of cheer ...stimulates digestion...increases alkalinity. So—

"For Digestion's Sake... Smoke Camels"

"LIKE SO MANY OF THE GIRLS, I prefer a mild cigarette—Camels," says Miss Frances Morel, machine operator. "I smoke Camels with my meals and after them too. They are swell!"

How Much Recovery?

Th[illegible] there [illegible] the United States

It reports [illegible] there were [illegible] unemployed [illegible] March [illegible] less than 2,000,000 [illegible]

Here is the same old problem again. How will the country be able to give employment to as many persons as had work before the depression?

That would mean according to the department of commerce estimate finding jobs for approximately 7,000,000 more workers than are employed at present. In terms of employment recovery has been a little more than 50 per cent effective with March 1933 used as a starting point.

In terms of production however recovery has been complete—more than complete *in some lines.* Such a comparison leads to the suspicion that 100 per cent recovery in employment cannot be reached.

The trouble is that unemployment estimates take into account the increase in population. For instance the department of commerce declares 4,848,000 persons have been added to the working population since 1929.

It becomes necessary therefore to find a better way to measure recovery in terms of production. A country which has added millions to its potential working population during the last 7 years cannot claim it has reached a point of recovery when its production reaches a level sufficient to absorb the smaller working population of 1929. It must be able to estimate how much production is needed in relation to 1929 to meet the requirements of more consumers and more potential producers.

If a satisfactory method of measurement could be found to reveal the recovery of production relative to the expansion of population it might be discovered that instead of approaching 100 per cent which is the level claimed by politicians production recovery still lingers somewhere between 60 and 70 *per cent.*

Unemployed or Job Hunting?

In Ohio about 100,000 youths under 25 are—or were in April—seeking jobs through the federal and state employment services. They constituted about one quarter of those listed with the bureaus.

Realization that most of these youths were in school *when the depression cyclone* first ripped across the country recalls an important question about unemployment *figures and stresses once more the need for* a census on unemployment. In 1929 for instance these youths and their counterparts over the country were not designated as employables. Should they now be lumped without discrimination into the job seeking class with the result that unemployment figures are swollen to a psychologically discouraging point?

It is known for instance that several millions have gone back to work in the last few years yet unemployment figures remain high. Would all these youths including the girls among them be seeking employment if the heads of their families were earning good wages? Are there not many thousands of married women and middle-aged single women seeking jobs and classified as unemployed who would remain at home if their husbands or family heads were earning satisfactory incomes?

No reliable estimates are available but it is safe to guess that several thousand of Ohio's 401,000 unemployed registered at the bureaus would withdraw if husbands and fathers were bringing home fat pay envelopes. The important point is that neither estimates nor exact calculations are on hand.

Safe for Dictatorship

[illegible] reason [illegible] American interest in [illegible] Spanish [illegible] suspicion that nothing [illegible] happen in Europe without affecting the United States [illegible] how [illegible] Spain [illegible] therefore?

For an [illegible] where than Madrid. In Rome [illegible] a powerful dictator who has not attempted to conceal the fact he is sympathetic with the rebels.

In Berlin there sits another dictator who probably has found time between Olympic thrills to notice that Spain's leftist government has been threatened by revolutionists who like him are opposed to communism.

In France there sits a Socialist premier who would like to help the Spanish government discipline its opponents for the sake of keeping alive the fluttering flame of popular government in Europe.

In London there sits a prime minister who believes in parliamentary government and he too, must be aware of the possibility that Spain [illegible] a [illegible] successful tray [illegible] added [illegible]

Or [illegible] when the [illegible] [illegible] anes [illegible] and making brake squeal there [illegible] sort of [illegible]

Or the time [illegible] when a dent in a fender would be considered a *shameful thing* a sign of carelessness. When that happens drivers will boast that it took them longer to make that 100 mile trip than it ever took them before that they didn't pass a single car or truck that they had to come to a full stop three times to let pedestrians reach sidewalks in safety and that driving an automobile was getting to be such a dull safe thing they are thinking of taking flying lessons for a thrill.

"Work Crazy"

A utopia to end all talk about utopias has been announced by its inventor. The engaging aspects of the new plan are that it doesn't call for our being drenched in collectivist doctrine and forms of government. It doesn't bewilder us with blue prints showing how the more abundant life is to be obtained and its net of appeal is sufficiently large to catch most fish.

Just four points make up the program of Roger Payne the hobo philosopher who holds two degrees from Cambridge university England. Mr Payne proposes a one day work week a minimum wage of $50 a week work for those who wish it travel and study for leisure time.

Americans the social inventor asserts are work crazy. All they know and do is work. How much more pleasant to bend our backs to routine tasks for only one day a week or 52 days a year and then wander where we will? At present Mr *Payne declares two days of our week's* work go to pay profits interest and rent and another two days are taken up by *waste resulting from idle and inefficient* machinery and the like. Ridding ourselves of these unnecessary hours of labor we could share our work so that unemployment would vanish.

The plan undoubtedly would satisfy our *craving for work and satiate our wander* and reading lust. Yet like all such plans it has one deficiency. This time lack of blue prints is the fly in the soup. Just how Mr Payne can this heaven on earth be attained? Can we get a money back guarantee if we invest?

But, Herr Goebbels—

Many German [illegible] 100 *per cent* Nazis are disturbed over the pit of oak trees winning American athletes are going to bring home from the Olympic games. Whistling suggestive of the [illegible] cheer has greeted many of the winning efforts of our trophy winners. [illegible] news [illegible] Angriff has gone so far as to belittle the American team and suggest we would be nowhere if it weren't for our black auxiliaries.

Allowing for the N[illegible] over the triumphs of our [illegible] non Aryans [illegible] Herr Goebbels that Dunn [illegible] Meadows [illegible] Hardin and Stephens [illegible] only a few are the names of white American athletes who have made their presence known at Berlin. But Herr Goebbels the most important point is that Owens Metcalfe Woodruff Johnson Robinson and Albritton—part of the colored point winners—are all good Americans. Their ancestors came from another country but so did the fathers of [illegible] and Meadows for instance whom it must be conceded are real Americans.

To most persons in this country the triumphs of the Negroes are indeed heartwarming. Unfortunately the Negro race in America has not had quite an even chance to prove itself but men from its ranks have made their impress in literature science education and in other fields of endeavor. The young Negro in Harlem does not know much about his Paul Dunbar his Du Bois so it is particularly gratifying that members of his race are making their mark in the athletic world.

Jesse Owens and his fellow Olympians have added [illegible] their [illegible] Tolan Hubbard [illegible] Di believing [illegible] are happy [illegible] symbols of [illegible] believe [illegible] heard [illegible]

WASHINGTON [illegible] Father Coughlin's [illegible] of [illegible] deny [illegible] gets far [illegible] campaign [illegible] of the [illegible] new deal has [illegible] that [illegible] Social [illegible] from [illegible] Stories [illegible] out the Father [illegible] the church [illegible] political activity.

[illegible] there was no such outburst against Father Coughlin in the days when he was [illegible] away at President Hoover [illegible] there were in those speeches [illegible] and as vehement as are now being [illegible] against Mr Roosevelt and Mr [illegible]

* * *

If [illegible] politicians hereabouts were [illegible] few weeks ago that [illegible] Rome would find some [illegible] of silencing Father Coughlin people of a broad gauged interest in public affairs are rather glad that the [illegible] interfere. For had the [illegible] intervened it might have [illegible] attitude [illegible] charges [illegible] were heard in the 1928 campaign [illegible] effect that the Vatican [illegible] *clear an influence in American political life.*

Intolerance is a good deal like partisanship. Persons will deny with vehemence that they are partisans but they will refuse to read or listen to a speech that happens to express an opposite view. There are Republicans for instance who boast that they never listen to Mr Roosevelt on the air and there are new dealers who boast that they will not listen to Mr Landon. Father Coughlin himself said the other day he didn't tune in when Gov Landon was on the radio.

The unwillingness of the partisan to listen to or read both sides is characteristic of every campaign but it is rarely that a better lesson in the art of tolerance is taught than by those who themselves take extreme positions. If Father Coughlin serves no other purpose in this campaign than to cause those who disagree with their opponents or who are intolerant of opposing doctrine to take an interest there in it will have [illegible] service.

* * *

Not only is this matter of tolerance related to the readiness of a fair minded person *to listen to the other side but to the* reading as well of positive and oftentimes passionate statements that appear in print. The true test of tolerance is whether one can read or listen to a discussion which one feels is wholly unfair and wholly wrong both in logic and fact.

The carrying on of political debate is at its best when ideas are met with ideas instead of abuse with abuse. The present campaign shows signs of being centered on personalities. The public on the whole takes it for granted that persons who achieve the eminence of a presidential candidacy or of the presidency are fundamentally honest and upright and that efforts to besmirch their characters are ill advised.

Thus it is being reported from different parts of the country that Father Coughlin made votes for Mr Roosevelt by his recent attack and this may happen in turn with respect to independent minded voters who observing the attacks on Gov Landon by new deal spokesmen will be inclined to his side. It is an old rule in politics that abuse of an individual turns out to be a boomerang at the polls.

Men and Affairs Under The Washington Spotlight

BY PAUL MALLON

WASHINGTON Aug 10—Parlor politicians always gossip about the comparative wealth of opposing candidates in a campaign year. It is probably a matter of little true significance. Many rich men are haters of the rich while many poor men are conservatives.

Less has been heard about the subject this year than usual possibly because both President Roosevelt and Gov Landon are considered to be in comparable categories. Common gossip however has classified Gov Landon as a self made oil millionaire and Mr Roosevelt as head of a family with holdings valued somewhere near that.

It is difficult for anyone to estimate accurately what a man may be worth from year to year in recent years because values have fluctuated sharply. Yet it is possible to get a rough idea from persons in a position to guess best. The following estimate of the fortunes and incomes of the opposing candidates are only that and nothing more. They are not guaranteed to credit managers who should make their own investigation.

Landon

The Republican nominee's closest friends doubt that his holdings would add up to $1,000,000 today. Their guess is something between $600,000 and $[illegible]00,000 depending on the price of oil. Most of his holdings are in small wells although he also owns two large ranches and a farm or two.

Mrs Landon is probably worth around $150,000 maybe a little more. Top estimate is $[illegible]00,000. *Her holdings were inherited mostly from her father.* They represent investments in bonds and farms.

If you strike an average of these estimates you will compute their joint worth at about $8[illegible]0,000 instead of a million.

Earnings

Just what Mr Landon's income is from these investments is harder to estimate. His friends say he has never been as much of a speculator and chance taker as most oil men. His practice has been to drill a well let the money from it accumulate and then drill another.

The story goes that his father gave him a credit of about $10,000 to get started and he had an equal amount of his own savings. But his luck was so good from the start that he did not have to use the credit and got his start out of his own savings.

In the oil business he [illegible] a small potato.

Roosevelt

The Roosevelt family can probably top the Landons a little both as to net worth and as to income of late.

The President first received an inheritance of about $100,000 from his father and another $100,000 from his half brother. For 10 years prior to the time he became President he drew about $25,000 salary a year first from the Fidelity and Deposit Co of Maryland of which he was vice president and then as governor of New York. Also he had a law business on the side and sold some writing.

The published income tax returns of 1934 show he paid a tax of $18,306 that year. Tax experts say it is impossible to estimate the amount of the income from the tax but that ordinarily this would be the tax on an income of about $[illegible] 700 a year. Those were the tough days for income from bonds.

As President his salary is $75,000 a year his income from his inheritances and savings may be roughly guessed at as around $12,000 his income from his books as $15,000. Total income upward of $100,000 a year total personal worth about $750,000.

If these figures err it is on the conservative side.

Hyde Park

The bulk of the Roosevelt fortune is still in the name of the President's mother an inheritance from her father as well as her husband. This includes Hyde Park the 600-acre estate on the Hudson and substantial bond holdings all of which will probably be the President's some day.

The magazine Fortune in 193[illegible] estimated Mrs James Roosevelt's holdings at an original value of $700,000 a depression value of $[illegible]000. Today $600,000 would be a fair guess. But much of it is in land which produces no income and her income has never been fairly guessed.

If you add in the President's holdings their combined worth could be conservatively estimated at somewhere around $850,000.

Farmer

The active First Lady of the land is authoritatively estimated to have earned a little more than $100,000 on her writings broadcastings editings and other endeavors last year. Much of this is said to have been turned over to charity before it reached her hand.

In addition she has a small inheritance from her father invested mostly in bonds. This nets her on an average about $7,500 a year. Its total value is vaguely guessed at as about $150,000.

Mrs Roosevelt's total worth therefore [illegible] possibly $150,000 her income last year about $110,000.

The total estimated worth of the three combined would therefore be exactly *1,000,000* which is probably not far wrong. The combined earnings of husband and wife last year could likewise be roughly computed at upward of $210,000 a considerable portion of which went to charity.

Note—The Roosevelts are said to use far more than their government expense account of $25,000 annually for entertainment and travel. The President is supposed to contribute to the support of Hyde Park from this fund inasmuch as he uses the estate several times each year as a second White House.

Security

The only [illegible] this rough analysis [illegible] that both candidates meet fairly well the personal financial ideal laid down by Mr Roosevelt for aspirants to political careers. Once in a speech he said:

Either the individual should have enough money of his own safely invested to take care of him when not holding office or else he should have business connections a profession or a job to which he can return from time to time.

New York Notes

O O McIntyre's Diary of Fact, Fancy and Folks

NEW YORK Aug 10—Diary. To the park with the dog many sprawlers still asleep in the open face full to face another day. And talking to my friend John Lawlor the handsome Irish starter at the Ritz who tells me has been at his post [illegible] years. *And so for* a snack with Arthur McKeogh in the Radio City open garden.

Home to find someone had sent me William Allen White's famous editorial at the death of his daughter Mary which always gives me a choke. And a telegram from Jimmy McHugh the song writer and a new photographic map of Gallipoli from Dr Charles Holzer who is to our town what Amon Carter is to Ft Worth.

To dinner with the photographer Ewing Galloway his lady Marion being off for Norway and the Salzburg festival and we sliced deep into a two year old Kentucky ham and he told me of his farm of raising mules and of his poverty stricken tourist road days. And no person I've known bears such *a resemblance to Lincoln.*

No many New Yorkers have maintained so successfully in the era the finesse of polished bachelordom that is George Jean Nathan's. Past the 50-year mark he could easily be taken for a blood in middle thirties. He has lived in the same bachelor quarters a hop skip off the avenue for 20 years. A *front pew* critic at a thousand and one first nights he offers that perfection of polite ennui that has become something of an act. His earliest company at the theater cafes and bon ton luncheon places has been the fragile Lillian Gish. But friends insist their attachment is entirely platonic. And he strengthens this by squiring many new charmers who come to town. Na*than* has a leisurely slant about letters. He has a ready market but apparently writes just enough to supply wants and no more. His latest critical encore is to review for the he mannish Esquire.

Young Cornelius Vanderbilt *is reputed* to have attained a celebrity status in a tour of the Orient never achieved in his own country. Japan especially hailed him with a hearty banzai. He was wined dined and geishaed by several of the reigning peers. Except perhaps Roy Howard no American has been so royally receptioned in the past few years. Vanderbilt has been an odd figure in *your* album—a rich man's son whose highest ambition is to be a rough and tumble reporter and back slapped as Neilly by the gang. Somehow he just misses the camaraderie he craves. The name Vanderbilt still awes.

Spaniards fight savagely on both sides of their civil war an indifference to death outside of Asia. Hardin County Farmers Object to Realignment

Special to The Star

KENTON O Aug 10—The Hardin county board of education today received remonstrance to its reorganization program presented by approximately 99 per cent of the electors in six rural school districts.

Qualified voters of Buck, Pleasant, Cessna, Lynn, Dudley and Goshen rural school districts petitioned the board and the state director of education to leave the outlines of their various districts as they were prior to adoption of the redistricting program July 1. Another petition requests dismissal of the entire redistricting program as it affects the six districts and those portions of the districts that have been annexed in the Hardin central district and other outlying districts because the electors of the districts had no voice in the reorganization.

Power of Church Theme Of Union Service Sermon

All of the power of darkness, all of the strongholds of sin and all of the legions and agencies of Satan cannot destroy or overthrow the church because it is God's organization founded on the Rock of Ages through Jesus Christ His only begotten son, Rev Carl V Roop of the First United Brethren church declared at the union service held last night at the Epworth M E church.

Approximately [illegible] persons heard the sermon which was on the subject The Place and Power of the Church, from the text II Corinthians 6 2.

Rev Roop's sermon was in part as follows: The church is more powerful than political parties, chain stores and business organizations, Chambers of Commerce, banks and lodges because it is destined through Christ to save and redeem lost souls and secure and insure eternal life throughout all of the countless ages of a never fading immortality.

The world looks at the church through its worldly glasses and says, We do not know the church, we never have fully understood the genuine disciple of Christ, we are sure that the church is dying. But the world has also failed to know and understand self sacrificing love, the love that founded the church that has struggled, battled and triumphed for God and His cause, that has led [illegible] martyrdom and Christ to Calvary.

Looking through [illegible] glasses of [illegible] until [illegible] greed and selfishness [illegible] course will [illegible] a thing that is good appears [illegible] a work that is worthy seems foolishness and a stumbling block and a great cause [illegible] much alive and living looks as if it [illegible] a slow death if it is not actually dead.

But [illegible] on the glasses of self sacrificing love [illegible] holiness, mercy [illegible] and [illegible] a vision of unselfish service [illegible] struggling needy humanity and see the need of building a Christian character that will successfully stand the test of time and eternity.

Rev Franklin C Markley pastor of Epworth church presided. The opening prayer was offered by Rev S J Cover of the First Church of the Brethren and the benediction was pronounced by Rev Lawrence A Wood of the Trinity Baptist church.

Preceding the service there was a [illegible] minute organ recital by Miss May [illegible] Lawrence. A quartet composed of Rex R R[illegible] Paul [illegible] Harold Bradt and Ross A Martin sang the two hymns [illegible] the [illegible] Blest Be the Tie That Binds.

Banker Winslow Suggests Loan to Priscilla Be Made with a Cashier s Check

A[illegible] Do [illegible] to carry [illegible] I expe[illegible] feeling [illegible] I [illegible] remember [illegible] and Mrs Cosgrove [illegible] cash [illegible] car

[illegible] I found [illegible] I am going [illegible] to a [illegible]

I don t want to draw a check for [illegible] name [illegible] appear [illegible] my problem Mrs Cosgrove [illegible]

Mrs Graham has to [illegible] me a [illegible] she [illegible] and I know [illegible] she has good [illegible] to [illegible] I [illegible] her but I was [illegible] to [illegible] way so she wouldn t have to carry all that money around

Of course Mr Winslow [illegible] that I [illegible] an aura of [illegible] around him

Your name need not appear in the transaction at all he said except that we at the bank must know the name of the person whom you wish to have the money Have you any objection to that?

Very Simple Matter

None at all I said flushing

Then Mr Winslow said in a tone that put me entirely at my ease It is a very simple matter I am sure the sum you have in your checking account is sufficient to cover this amount without disturbing any of your securities but I ll just make sure It won t take but a minute Pardon me

He took the phone on his desk off the hook and spoke into it

Please get me the balance of Mrs Margaret Graham of Mount Trempe[illegible] he said and the unfamiliar address reminded me that I never had given the bank my real address All the communications from the bank—few in number because my checking account was inactive had been sent to me in care of Mrs Cosgrove and she had relayed them to me in as small compass as possible in an envelope containing a letter which had no reference to the enclosure

In this manner no one had ever guessed of the large sum lying to my credit in the Kingston bank and I hugged the knowledge as Mr Winslow spoke again

Twenty six one three seven and forty two cents he said jotting down the figures Thank you

He put the phone back upon the hook and looked across at me

You have enough and to spare he said Twenty five thousand was the sum you named I believe

Yes

You ll have over [illegible] thousand left in the checking account after we finish this transaction

My mind harked back to the day Robert Savarin had told me of the legacy he was leaving in my hands

Prophecy Comes True

I want you to keep between twenty five and thirty thousand of it in a checking account he had said You won t receive as much interest as if you invested it in other ways but it will always be available at short notice

I had obeyed him meticulously and his prophecy had come true I was not experiencing difficulty in getting hold of the money Then I pushed my memories away for Mr Winslow was speaking again

The best way of doing this he said is to have the bank make out a cashier check for this sum payable to the person whom you name Your name will not appear on the check at all simply the name of the bank and the name of the person who is to receive it You will sign a slip of paper authorizing us to do this and you will have your check within ten minutes

How simple it seems when it s explained I said And it won t be dangerous to carry as money would be?

If you mean that it s [illegible] could mean the lo[illegible] of the money no he said The check can be stopped if lost And you won t need to carry it If you ll tell us the ad[illegible]dress of the [illegible] check [illegible] a [illegible] to [illegible]

NEW YORK Aug 10 — Now that the end of summer is so near at hand ideas for new fall clothes are uppermost in every one's thoughts

So before casting away the washable dresses and floppy hats give a thought to the felt hats and wool suits that mark the fall fashion trends

Joan Perry lovely moving picture star has chosen a felt hat for semi-sport wear that is equally smart to wear either at the races or for the first days in town It is gray with a wide ly creased crown and an up turned back brim that is caught with two navy blue pom poms

In selecting one's new chapeau however it should be kept in mind that merely because a style is the latest thing out it does not mean that that mode suits every one Be guided in selection of clothes by your personality

A white collar and a pert black bow tie carry out the smartness of the costume A clever black hat black shoes and white gloves complete the outfit

Another equally appropriate and alluring jacket frock is worn by Marion Marsh It is made of sheer brown wool crepe with a white leaf pattern A brown felt hat bag gloves and shoes carry out the color scheme The blue fox collar adds a last flattering and luxurious touch

CHAPTER FIFTEEN
Tortured Parting

DENIS left Wednesday night

On Tuesday Anna Ford telephoned Carol? I'm expecting you for dinner tomorrow night Then you can drive over to Erskine with Denis and Bill to catch the Washington train I'd suggest your taking Denis alone but it's thirty five miles and you'd be pretty late getting back

One of the worst things about not marrying Denis Carol thought, was losing Anna as a mother in law She said quickly

You're an angel of course I'll come

About six then Anna said We'll have to eat earlier than usual I daresay Denis will consent to bringing you over

In a town where eating was a necessary evil Anna Ford succeeded in imparting grace to her meals She had dinner instead of supper at night and wore soft informal dresses many of them shabby There were cocktails tonight to create at least a synthetic gaiety and the talk was all of Washington

Their farewells were as casual as her own had been little more than a month before Mr Ford said Well Denis remember to give us the lowdown and Anna kissed him and smiled

Come back with your shield darling or on it

That was bravado she had no illusion about Denis

The drive to Erskine was almost silent Denis sat with his arm around Carol holding her as tight as he could and Bill kept his eye on the road When they drew up at the station Bill grinned at his brother and held out his hand

Well old man so long I've got to see a fella about a dog

They gripped hands without speaking and Bill glanced at Carol

I'll be back when the train leaves God bless you my children

* * *

But when Bill had gone they still could not talk There was as there had been on the first night too much to say—and not enough They heard the train whistle finally with the relief of the condemned who prefer to have done with their ordeal

Denis said huskily "Don't come with me If you do I'll never get on the damned train"

She shook her head "Don't worry I wouldn't for anything Denis" Her voice failed

His mouth on hers was quick and hard and she shut her eyes in order not to see his face. When she opened them he was walking down the platform

Bill appeared suddenly from nowhere and started the car drove the first few miles in a compassionate silence

If you want to use my shoulder he said gruffly it's at your disposal

She laughed a little Thanks but I guess not Denis told me once that I wasn't the type

Boloney they all are Bill said firmly He was twenty three and he knew

After that they talked and she managed fairly well Hadn't she once wanted Denis to go and leave her in peace? Even the ache was shot through with the realization that she could begin now to try to forget him to wonder what lay around the next corner She was still young enough to speculate about corners

At Mrs O'Connor's door Bill surprised her by patting her cheek

You're a honey Carol Carry on He turned and ran down the steps

She climbed the stairs slowly dragging off her hat as she went Ellen's door was closed and she was glad when it didn't open she didn't want sympathy just now

In her room a pile of history tests lay on a table and leered at her She looked at her watch nine o'clock and early enough to deprive her of an excuse to postpone them She drew a chair toward the light and began on the papers

A minute later she laughed aloud Allen Lester had labored long and hard over the question about what held the British Empire together Allen's mind had been unable to cope with an abstract concept of God King and Country as a unifying force He had replied with simple unassailable logic

The British Empire is held together by the English Channel

School closed for the holidays on the last Friday before Christmas

Friday was a total loss the children were too excited to concentrate on lessons and the teachers were too excited to insist upon it Mr Hall succumbed to the prevailing demoralization and cut the last two periods in half thereby preventing spontaneous combustion

Carol tried to ignore the hands of her watch and to keep her thoughts in order Tomorrow Milly and Pat and Jill! The very thought made her heart hurry Milly and Pat and Jill!

When the last class had dragged itself around the clock the children leaped to their feet and clattered out shouting Merry Christmas as they went

She sat still when they had gone strangely enough there was no hurry now Her train left at five and her bags were packed and waiting The time seemed longer now because it was empty

Mike came in hesitantly and stood over her

Miss Torrance I sure hope you have a good time at home I know you'll be glad to get rid of us for two weeks

His voice was dull and lifeless and the aura of anticipation that surrounded her broke like thin glass She looked at him with still intent eyes and decided abruptly to cut straight through his reticence

Mike You told me in September that you were going to ask me to help you when you needed it

His face seemed to break up and she saw wretchedness behind its carved perfection

I—I couldn't Miss Torrance You'd 've thought I was a fool

You might at least have given me a chance I can't quite see you being a fool A lot of other things maybe—good and bad—but not a fool Do you want to tell me about it now? I've got plenty of time

He looked at the floor and she held her breath

I guess it wouldn't do any good —now

The last word dropped heavily and ominously into the silence Now What in God's name had Mike done? Surely not ? She tried to look through his eyes and find the answer but they were opaque with unhappiness

Mike you'd better tell me if it takes all afternoon She would even miss her train and one of her priceless nights at home if it meant Mike's rescue

He shook his head slowly No'm You want to get ready to leave She denied it with a swift gesture I might talk to you when you get back

It [illegible] be [illegible] then I've got two [illegible]

But it was no use Now in this [illegible] season that anyone could [illegible] at any time Mike felt that [illegible] She [illegible] him [illegible] Mike [illegible] how they [illegible]

Good-by Miss Torrance

They gripped hands and it was Mike who first drew his away She [illegible] desperately Mike but he was walking out of the room

She locked her desk and shook off the clutching hands of the room as she went

Ellen was just leaving the house when she reached home

I was afraid I'd miss you Ellen said gaily Have a grand Christmas Carol

Carol kissed her and made herself smile Thanks darling Have one yourself It is time for your bus already?

Yes Mack's driving me down He's coming over for the New Year's eve he says Merry Christmas

Merry Christmas

But not Carol thought as she went up the stairs until she could forget about Mike

There was a letter from Denis on the table and she took it up hungrily

She folded the note and slipped it into her bag to read on the train There was time for a luxurious bath the other teachers who taught in grammar school had already gone

But as she slipped into the steaming tub she realized that there were tears on her face She laughed aloud wryly

What a handsome way to begin Christmas!

Carol learns tomorrow what happens to former lovers

Employes in the store had heard the kitten's meows coming from underneath the floor but had been unable to locate it Mr Ungericht sighted it after he had removed a floorboard to examine a connection on the carbonation machinery

By The Associated Press

SYRACUSE N Y Aug 10—Rev Charles E Coughlin Michigan priest told a sweltering crowd yesterday that he would fight against indorsement of any third party by his National Union for Social Justice

His statement came a few minutes after Thomas C O'Brien introduced as the Union party's candidate for vice president said he had not yet received the indorsement of the National Union and made a plea for the indorsement of your splendid organization

The occasion was a rally of up-state members of the National Union held on the shore of Onondaga lake three miles north of Syracuse Officials estimated the crowd at close to 15 000

18 Persons Overcome

A broiling sun beat down A first aid station reported treating 40 persons for heat exhaustion between noon and 4 p m

Rep William Lemke Union party candidate for president did not attend and the committee in charge which announced he would speak offered no explanation

Coughlin declared the National Union for Social Justice has not wedded itself with any political party nor will it ever wed itself with any political party

We are not interested in parties he declared We are interested in the principles of the men

He said our purpose for existence is not to join with the Republican or Democratic or Socialist party or whatever you care to call it or any other political party because we are independent of all political parties

He said the National Union for Social Justice will indorse some Democrats because they are above their party bosses and because they have pledged themselves to the organization's 16 principles of social justice

He added the same holds true for Republican party candidates or candidates of any other party where they have pledged themselves to our program

Wants Economic Freedom

We are indorsing both Democrats and Republicans who believe in freedom from slavery not only physical freedom but economical he asserted

He said in his opinion the best way for the organization to gain its ends was to send men to congress pledged to its principles

He said the organization was made up not of destructionists but of pioneers marching onward to save the best of the past and make this country a better place than we found it

The Constitution contains all the remedies we need if we care to use it instead of abuse it he asserted

He said both major political parties are necessary but accused them of forming a Siamese wedding under cover

The priest reiterated a charge he made at the Townsend convention at Cleveland that President Roosevelt had failed to fulfill a campaign promise to drive the money changers from the temple

In referring to the President he said

I mention the name Roosevelt respecting him as my President and your President

By The Associated Press

CHICAGO Aug 10 — A pork shortage in the United States was threatened today as western farmers held their corn for fancy drouth prices

Hogs have been hurried to market in large numbers than usual for the last month shippers reported and higher prices this winter or next year were foreseen as a result

There is no longer any question that drouth damage to the corn crop will be very severe J Edward Wynne one of the leading provision specialists on the board of trade explained

Confident that prices will rise to fancy heights (September futures were quoted at $1.05¾ a bushel on Saturday) the farmers are holding back their corn to sell rather than use it as feed

They know they will get a good price without running feeding risks

Pork prices were firm Wynne continued and in the rush to cash in on the drouth from both ends hog growers were getting rid of sows which had not yet farrowed

Cubs Drop Pirates in Double Bill [illegible] Hold Second Place

By The Associated Press

[illegible]

The [illegible] Cubs [illegible] finally [illegible] their [illegible] hit [illegible] games as they [illegible] Killis [illegible] pitchers [illegible]

This would [illegible] weekend [illegible] yesterday with a [illegible] assault against the Pirates to take both ends of a double header 10-1 and 9-2 and move back into the first place they gave up last week because of weak hitting.

The Cardinals were knocked out of the lead by a tremendous hitting attack on the part of the Cincinnati Reds who fired 40 safe blows all over the lot to turn in a twin win 10-2 and 12-5.

With the lead at stake the Cubs and Cards clash only in the start of their second series in a week, but the Chicago nine are a considerably improved outfit at bat since they sent down three out of four in the last meeting.

The only other outfit rated a chance, the fast-moving Giants, stretched their winning streak to seven yesterday by downing the Phillies [illegible]

Maintaining their 11 game American league lead the Yankees bowled over the Athletics twice 7-6 in 10 innings and 3-0 with Lou Gehrig hitting his 34th homer in the opener and driving in all the runs in the nightcap with a triple with the bases loaded.

The Indians scored second place with a doubleheader triumph over the White Sox 9-1 and [illegible]

Russ Van Atta pitched the Browns to a [illegible] win over the Tigers while the Red Sox took the only victory of their series with the Senators winning 8-2.

The Brooklyn Dodgers climbed out of the National league cellar for the first time in two months with a twin victory over the Bees [illegible]

3 FEATURE MATCHES BOOKED ON MAT CARD

Almost direct opposites, Andy Tremaine, that cool, calm wrestler of the southwest, and Count Von Frumberg, the bewhiskered and hot-headed German, will meet on tonight's wrestling program to settle differences which arose in their match here last week. The Count received the decision on the final fall to win over Tremaine last week in a scrap which aroused the ire of some spectators.

Ken Hollis of Texas, who has lately become the scourge of the west coast, will meet Toots Estes of Elk City, Okla., in the second 90 minute tangle. Hollis makes his appearance here tonight for the first time in more than a year while Estes was introduced to Marion fans when he waded to the pinnacle of a recent battle royal.

Swede Hanson of Sweden, who has earned quite a reputation in the junior middleweight division, will meet Art Perkins of Detroit in a special half hour curtain raising scrap set to begin at 8:30 o'clock. The wrestling card will be held at the Uncapher avenue outdoor arena unless inclement weather makes it necessary to move the program to the Marion Steam Shovel gymnasium.

Milwaukee Drubs Toledo; Errors Give Kansas City Win Over Columbus

By The Associated Press

CHICAGO, Aug. 10—Manager Al Sothoron and his Milwaukee Brewers breathed a little easier today in their fight for the American association championship.

The Brewers held a three and one half game margin over St. Paul as the result of sweeping a double bill yesterday with Toledo 13 to [illegible] and 5 to 4. Forrest Pressnell won his 17th game of the season.

The nightcap was called in the fifth because of darkness.

Oscar Eckhardt's home run in the tenth gave Indianapolis a [illegible] to 4 win over St. Paul after Art Herring had shut out the tribe in the first tilt 4 to 0. Leroy [illegible] was charged with his [illegible] defeat against 21 wins. [illegible] Page held the Saints to seven [illegible] in the tribe victory.

The Champion Minneapolis Millers swept a double bill and their four game series with Louisville. The scores were [illegible] to 5 and 15 to 5. Milt Rosen's [illegible] fly which allowed Thompson to score from first after Fabian Gaffke's homer with two on had tied the count gave Arch McKain his 16th win of the season in the first tilt.

In the day's only single game Kansas City defeated Columbus 9 to 2, errors by the Birds in the opening inning giving the Blues a commanding lead.

ZANESVILLE HOLDS FIRST BY ONE GAME

By The Associated Press

COLUMBUS, O., Aug. 10—With four weeks left to the second half only one thing was certain in the Mid Atlantic league today—Zanesville was on top by a game. Huntington put on a five-run rally in the seventh last night to defeat the Greys 8 to 7.

Charleston split a doubleheader with Canton to lose a chance to take first place. Manager Patterson of the Terriers said he would protest the second game which the Senators won 5 to 1 in 11 innings. Walters stole home with the winning run while Catcher Brockie and Pitcher Burgen conferred in the box. The umpire allowed the run. The Terriers took the first 6 to 1.

Dayton moved into a tie for second place with Charleston with a 1-0 victory over Johnstown. Akron took a pair from Portsmouth 4 to 3 and 7 to 11.

FOSTORIA LEADS IN OHIO STATE LEAGUE

By The Associated Press

COLUMBUS, O., Aug. 10—Although weakened by the absence of Ed Zipay, the circuit's leading swatsmith who suffered a broken leg several days ago, the Fostoria Red Birds continued today to set the pace in the Ohio State league with a half game margin over Tiffin.

Fostoria split a doubleheader with Sandusky Sunday. Tiffin routed Fremont 14 to [illegible] behind Chuck Cronin's six-hit pitching. The Red Birds lost the first game 5 to 2 and won the nightcap 9 to 4. Steve Margo, ace of the Fostoria staff, sought unsuccessfully in the opening game to register his twelfth straight triumph.

BOB SERVIS TAKES OHIO GOLF CROWN

By The Associated Press

TOLEDO, O., Aug. 10—Broad-shouldered Bobby Servis was back in his home town of Dayton today but the galleryites along the lake front were still talking of the gallant fight he staged Saturday to carry the heights of Ohio amateur golfdom for the second time.

The sterling shot maker from the Gem City, only 21 years old, won more than just a golf match. He had more to do than just make his shots behave. He was faced with the necessity of defeating Maurice J. McCarthy, Jr., the 29-year-old Clevelander.

McCarthy had a huge psychological edge over Servis and in surmounting that Servis won his real victor, a victory which probably will land him on to greater heights. Servis won on the fourth [illegible] four holes over the regulation [illegible]

SERVICE HERE HONORS COUPLE

Calvary Church Pays Tribute to Missionaries and District Superintendent

The main auditorium of Calvary Evangelical church was filled last night for the God Speed Meeting tendered Rev and Mrs Gerald Zimmer who will leave Marion Wednesday to sail Aug 29 for missionary service at Chang-cha in Hunan province China

Both Rev and Mrs Zimmer are members of the church and the service was devoted to them at the same time giving recognition to the southern district superintendent Rev R A Sain of Columbus who has served as district head for eight years and who probably will be transferred to new work by the Ohio conference next month

Among the gifts presented Rev and Mrs Zimmer was a love offering of $80 given voluntarily by friends

Rev William M Davis pastor in his brief message said The church that produces not only converts but Christian workers is a church that must be filled with God's spirit Ministers and missionaries should be called to their work I am glad that in the past Calvary has had such spiritual warmth that it could produce preachers and missionaries

Mrs C R Beerbower of Marion president of the Ohio conference Women Missionary association presided for the service and in opening expressed her joy that for the first time the church was sending missionaries into the foreign field The service opened with an organ prelude played by Mrs Philip Bender hymns two glassiphone selections by Miss Ruth Zachman prayer by Rev Davis and an anthem by the choir under the direction of Charles Feaver

Mrs Zimmer expressed her appreciation for the privilege of knowing the Calvary congregation and thanked those who had made possible the purchase of an accordion which will be taken to China to help in the mission work I can't tell you how lucky I am with only 20 more days until we sail for China she said adding we really are happy to be going

Deep appreciation for the kindnesses the help and the prayers of the congregation was expressed by Rev Zimmer in his talk Life is a probationary period and there is no comparison with the returns in the life that we will live hereafter he said Eight things that he said have challenged him to missionary work are the privilege of representing the Evangelical church the opportunity of testing his own faith the difficulty of the task the great need of missionaries the opportunity of realizing the kingdom of God in his own life the people of China the privilege of representing 800 000 000 Christians and the privilege of representing Jesus Christ

Rev Sain gave a brief talk in which he spoke of the pleasure and joy he has had in ministering to the congregation H J Klinefelter class leader gave a parting benediction to Rev Sain who he said has been not only faithful in business and financial interests of the district but also in the spiritual uplift of the churches and ministers

Rev Zimmer delivered a sermon yesterday morning at Calvary church on Christian Missionary Motives taking as his text Romans 10 14 and 9 14

The minor things that motivate the Christian missionary are common gratitude for the blessing of God sympathy for those who do not know Christ and zeal to save civilization and the Lord's commander but the major motive is to bring the riches of the message found in the crucified and risen Christ because to experience Christ is to know God and to know God is to really live—eternally

He pointed out three motives which are un-Christian to extend the economic system to transfer civilization and to aggrandize the ecclesiastical organization

Christianity knows no barriers of race nationality or social position and missionary responsibility is not divided into home and foreign missions he said

Ludwig characterized the situation as serious asserting scores of industries hospitals stores and homes would be affected if service was halted

Simultaneously striking members of the Flat Glass Workers union clashed with sheriff's deputies who union officials said attempted to reopen the closure plant of the Owens Illinois Glass Co where operations were suspended six weeks ago in a controversy over wages and working conditions

MARY ASTOR'S CASE RESUMED IN COURT

Rumors of Conciliation During Week End Denied by Both Sides

By The Associated Press
